## **SUMMARY**

Goal-driven software engineer with 4+ years of experience in pursuing professional sports in Europe seeking to leverage my transferable skills in teamwork, communication, and discipline to make a successful transition to the software engineering field. Proven ability to excel under pressure, solve complex problems, and work collaboratively with diverse teams. I am passionate about leveraging technology to develop innovative solutions that drive business growth and improve user experience. A quick learner, eager to gain new technical skills and apply them in a dynamic and challenging environment.

## **SKILLS**

Programming Languages: HTML | CSS | Python | JavaScript | SQL

Frameworks: NodeJS | Express, etc.

Databases: MongoDB | Postgresql

Tools: Github | Heroku | Netlify | REACT

Spoken Languages: Mandarin Chinese, Intermediate Proficiency | English, Fluent

## **SOFTWARE ENGINEERING PROJECTS**

**Software Engineering Immersive** | General Assembly                      October 2022 - February 2023  
Successfully completed 500+ hours of expert-led instruction in JavaScript, React, Python and hands-on learning of computer science fundamentals and the industry's most in-demand technologies. Developed projects include:

**Tamagotchi Project:** CSS, HTML5, and Javascript6

- Built a small pet game using HTML and Javascript where the user is able to play with the pet and have the pet grow to adulthood.

**Foodie:** CSS, HTML5, and Javascript6, REACT, Express, NodeJS

- Built a frontend application with a partner where you can search for and find the best restaurants in a specific city and with this application you are given suggestions by the app.
- Designed and developed a restaurant page using CSS to display relevant details such as the restaurant's address, name, phone number, and other information.

**Whatsapp:** CSS, HTML5, and Javascript6, REACT, MongoDB, Express, NodeJS

- Created a MERN Stack Whatsapp clone where users can message and communicate with each other.
- Created that backend of the Whatsapp clone using MongoDB, Express, Node.js, and made restful routes.

## **PROFESSIONAL EXPERIENCE**

**Theory Livermore Outlet**

Support Associate, Livermore, CA

August 2019 - April 2020

- Maintained a clean and organized stockroom to ensure efficient item retrieval, resulting in breaking the store's record of total sales in a month.
- Supported customers with their needs by making sales to clients when other sales representatives were unavailable.

## **EXTRACURRICULAR ACTIVITIES**

### **Football CV Academy**

June 2014 - May 2016

*Goalkeeper, Stamford, England*

- Trained full-time 10 hours a day for 5-6 days a week to pursue becoming a professional soccer player.
- Communicated with teammates from various cultures and countries to win games against other academy teams all throughout Europe.

## **EDUCATION**

### **General Assembly, Remote**

*Certificate, Software Engineering Immersive (SEI)*

February 2023
